EVAN GWILLIAM, DC, MBA, BS, CPC, CCPC, CPC-I, MCS-P, CPMA, CMHP, AAPC Fellow

Dr. Gwilliam graduated from Palmer College of Chiropractic as Valedictorian and ran his own clinic for many years. Later he became a self-proclaimed certification junkie, adding credentials such as Certified Professional Coding Instructor, Medical Compliance Specialist, and Certified Professional Medical Auditor. He now provides expert witness testimony, medical record audits, consulting, and online courses for health care providers. He also writes books and articles for trade journals, and is a sought after seminar speaker. He is the Vice President and Chief Product Officer of the ChiroCode Institute and Find-A-Code; which provide coding, documentation, and reimbursement guidance and education to physicians and coders. He has a Bachelor's degree in accounting, a Master's of Business Administration, and is one of the few clinicians who became a certified ICD-10 Instructor through the American Academy of Professional Coders.

Presentation overview: This presentation will include how to find out what makes you an audit target, how to identify the top mistakes DCs make when setting up care plans, how to create effective goals that communicate medical necessity, current Medicare guidelines and updates as well as a review of effective SOAP notes and how to document diagnoses like a peer reviewer.
